## DAC MISSION

### Studio Mission...

Dance Arts Center of St. Charles is committed to providing an exceptional, technical dance education for every dancer. In a positive and family-oriented environment, we promote enduring self-confidence, self-respect and discipline through the artistry of dance. We inspire dancers to find creativity within themselves, and the courage to freely express that creativity.

### Young Artists...

For every child who has the desire to move, our main objective at DAC is to provide a place where they can learn their desired skills, and grow into happy, respectful people, who have confidence within themselves to succeed in every field they seek.
